geographygargaonclg21@gmail.com

The Department of Geography, Gargaon College, effectively incorporates Information and Communication Technology (ICT) to enhance teaching, learning, and evaluation processes. ICT-based classes are regularly conducted, utilizing tools such as LCD projectors to present lectures in an engaging and interactive manner. Through the integration of visual aids, maps, satellite images, and multimedia resources, students can better understand complex geographical concepts. Seminar presentations are an integral part of the department's academic activities, where both students and faculty present their research using ICT tools like PowerPoint to facilitate dynamic, visually enriched presentations that encourage critical thinking and active discussion. In terms of assessment, the department conducts online examinations using web-based platforms such as Google Forms, ensuring efficient and secure evaluations, which have been particularly useful during the COVID-19 pandemic. This shift to online exams has made assessments more flexible and accessible, ensuring continuity in education. Additionally, the department actively uses Google Classroom to streamline the management of course materials, assignments, and communication. Google Classroom facilitates seamless interaction between students and faculty, enabling easy sharing of resources, assignment submissions, and real-time feedback. This comprehensive use of ICT ensures that both teaching and evaluation are modern, accessible, and student-friendly, aligning the department with contemporary educational practices and preparing students for a technology-driven world. Through these efforts, the Department of Geography, Gargaon College, fosters an environment that enhances learning experiences, supports innovative research presentations, and ensures effective evaluation practices, contributing significantly to the overall academic development of students.
