Overview of the programme

Name of the Program: Introducing the earth: its past, present and future

Type of the programme: Extension

Place: Longkak Gohain Gaon LP School

Related to: Introduction to Geology

Date: 26.02.2024

Organized by: Department of Geology in collaboration with parent teachers' association, Gargaon College

Number of Participants: 5

Objective of the Program: To introduce and give a brief idea about the earth.

Rationality of the programme

Earth Science studies are critically important to modern society. An understanding of the rocks and minerals that make up the solid Earth, and how these materials interact with the atmosphere, the world water supply, and living organisms provides the foundation for all natural and environmental sciences. In this context, this extension activity will help the students to understand about the earth, its past, present and future.

Overview of the programme

Title of the program: The Cleanliness Drive Programme

Theme: Go Clean Go Green

Location: Rahdoi Pukhuri Pator Gaon, Sivasagar

Date: 17/03/2024

Objective:

To create awareness and promote environmentally sustainable practices through 'Go Clean Go Green' extension activity and encourage students to adopt eco-friendly environment and contribute to a cleaner, greener planet.

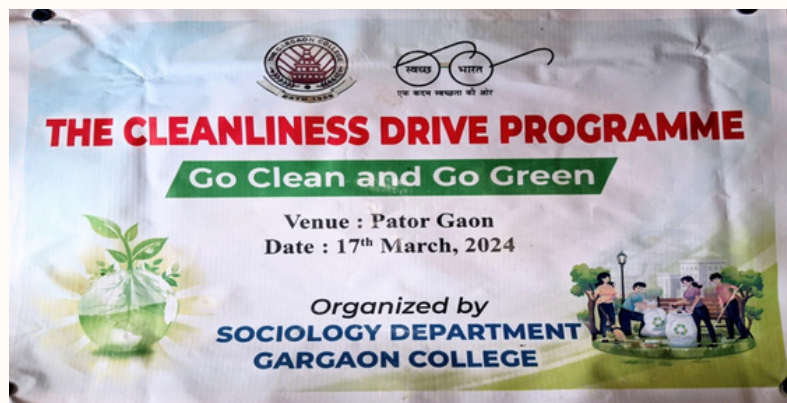

Details of the Program:

On March 17, 2024, the Sociology Department organized an extension activity programme where teachers & students went to Rahdoi Pukhuri, Pator Gaon, Sivasagar to clean up the area. The programme entitled as "Go Clean Go Green" The primary objective of this extension activity was to environmental awareness among students by actively participating in the clean-up efforts at Rahdoi Pukhuri Pator Gaon, Sivasagar. Through this hands-on experience, students learned the importance of maintaining cleanliness in public spaces and the impact of individual actions on the environment and community well-being.

Overview of the programme

Title of the program: Extension activity to Nimatighat

Date: 22.03.2024

Supervisor: Dr. Bidyananda Borkakoty

Topic of the program: How to Preserve our Environment

Details of the Program:

Preservation protects the environment from harmful human activities. Protecting our environment is the foundation for sustaining our planet, community, and economy. Our environment supports and controls our eco- system, allow them to grow and thrive. If we fail to protect our environment, we will put the lives of humans, animals, plants more at risk. One way to protect the environment is by recycling -a way to reduce the carbon footprints-and conserve natural resources. It also decreases the amount of waste that goes into landfills. Which cause less pollution to water bodies. Nimati ghat is the most important ports of the state, the Nimatighat serves as a link for ferry boats that operate from the river port to the Majuli Idsland, Kamalabari and Auniati. Many people depend on the Brahmaputra River for agriculture, fisheries,and as a source of drinking water. As evidence shows that increasing pollution from Jorhat city is threathing the river health and the ecosystem. Dr Bidyananda Borkakoty Highlighted on the pollution control and development of hygiene among the people living in Nimati Ghat. Students from Department of education also encourage people to practice hygiene in day-to-day life. Environmental management and cleaner production are rapidly becoming key issue in agriculture, economy, trading and business competitiveness.

Overview of the programme

Name of the Programme: Environmental Awareness Activity

Name of the Department: Geography

Place of Visit: Na-mati High School

Day and Date: 28th March 2024

Teacher in Charge: Dr. Dilip Kumar Deka

Resource Person: Distipriya Phukan, Niharika Borgohain, Rimpi Baruah, Nishita Gogoi, Anushka Paul, Debasish Borgohain, Gyandip Dehingia of 4th Semester

Number of participants: 46

Objective of the program: To impart lessons on Environmental Protection and Conservation to the students of 6th to 9th Standards.

Rationality of the Program:

The basic idea behind the program organized in the Na-mati High School is to improve the Skill of students in the field of environmental awareness. Knowledge improvement of school students through active participation and enable them to convert waste into wealth with a view of pollution control and natural resource management. This will develop a culture of sustainable development among the growing number of students in educational institutions.

Brief Report of the Programme:

The Department of Geography has carried out an Extension activity as a student outreach program at Na-mati High School, Nazira dated on 28th March 2024. The students in the 4th semester of the Department of Geography actively participated in the program. This is the joint venture program of Department of Geography and Na-mati high school for the effective dissemination of knowledge and skills to the students of Na-mati High School. The students from class 6th to 9th standard participated in the program. The program intends to develop the skills of the students of Na-mati High School to enhance geographical knowledge by focusing on regional and global geographical and environmental themes.
